

I long for You

words and lyrics by troy mcintosh ©2003

verse

There's a peace I find
When I close my eyes
As I dream of you
As I think of you

What will it be like?
When there's no more days
In Your promised land
Resting in Your hands

I am not ashamed
To admit I wish Your day was more near
When I enter in
This desire will finally end
And the meaning for my being
Will be clear

chorus

I want to see You
I want to touch You
That You would hold me
And say, "It's alright"
To be in Your presence
Share in Your fellowship
Jesus, I'm wanting to
I long for You
I long for You

out

Waiting
Wanting
To be with You (2x)

To see You
Touch You
To be with You

To meet You
Face to face
Be in Your
Warm embrace

Jesus
