

You Came and Made the Difference

Music and Lyrics by Troy McIntosh

1

I cry to think the Lord was crucified
But now I see the reason why You died
You would become my sin
That many would come to life
You came and made the difference for me

2

I know there was no other way
But who could see the meaning of the day?
Giving Your only Son
That an infinite price was paid
You came and made the difference for me

3

The God of all the universe
Why would You choose to love me first?
Knowing that You are God
You bled away the curse
You came and made the difference

4

"Eli, Eli, Lama Sabachthani!"
My God, My God, how could You let this be?
In Adam I was lost
But in You I've been set free
You came and made the difference for me

For me

For me
